Article 29: The UN Convention on the Rights of the Child

'Education must develop every child's personality, talents and abilities to the full. It must encourage the child's respect for their parents, their own and other cultures, and the environment.'

Context

St Anthony's School is an all age special school for students with a wide range of behavioural, learning, emotional and social needs. Our school is an accessible, inclusive and integral part of the community of Thanet, an area of low socio-economic indicators. It is a school where diversity is celebrated and strong partnerships built and everybody treated as a unique individual. All students have SEN and as a result receive an Education, health and care Plan.

Mission Statement

At St Anthony's, we recognise that the personal development of students spiritually, morally, socially and culturally plays a significant part in their ability to achieve and learn and prepares them for the opportunities, responsibilities and experience of adult life.

The four areas can be defined as:

Spiritual Development: is about being reflective about beliefs, values and aspects of human experience, using imagination and creativity and developing a curiosity in learning.

Moral development: relates to recognising right and wrong in school life and outside, understanding consequences, investigating moral and ethical issues and offering reasoned views.

Social development: involves using a range of social skills in different contexts, working well with others, resolving conflicts and understanding how communities work.

Cultural development: has to do with responding positively to a range of artistic, sporting and other cultural opportunities and to understand, accept, respect and celebrate diversity.

At St Anthony's we aim to provide the following:

A stimulating experienced based curriculum that is meaningful, appropriate and relevant, to our students enabling them to maintain progress and reach their full potential.
